## Annex

### **Terms of reference for national focal points in charge of liaising with the secretariat on matters relating to capacity development**

1. Capacity-building and capacity development are essential aspects of the mandate of the International Seabed Authority under the United Nations Convention on the Law of the Sea and the 1994 Agreement relating to the Implementation of Part XI of the United Nations Convention on the Law of the Sea of 10 December 1982. The duty of the Authority to ensure that a variety of capacity-building mechanisms are developed is recognized in the strategic plan of the Authority for the period 2019–2023.<sup>1</sup> Such mechanisms should be aimed not only at facilitating the transfer of technology to developing States<sup>2</sup> but also at ensuring the expansion of opportunities for their participation in activities in the Area.<sup>3</sup> In the light of the foregoing, members of the Authority have identified that the challenge lies in the identification of appropriate mechanisms, including tailored programmes and initiatives, to ensure the fully integrated participation of developing States in activities in the Area at all levels. Strategic direction 5 (Build capacity for developing States) and strategic direction 6 (Ensure fully integrated participation by developing States) are aimed at accomplishing this objective.

2. Pursuant to the request by participants in the workshop on capacity development, resources and needs assessment held by the secretariat in Kingston in February 2020 to develop terms of reference for national focal points in charge of liaising with the secretariat on matters relating to capacity development, the role and responsibilities of such focal points are established as follows:

- (a) To facilitate dissemination at the national level of information on capacity development programmes and activities to be implemented by the Authority;
- (b) To act as point of liaison between the secretariat and the member of the Authority on any matters relating to capacity-building and capacity development;
- (c) To help to identify potential partners at the national level with which the Authority could develop, in close cooperation, initiatives for training and capacity development;
- (d) To raise awareness among national ministries and other relevant agencies of the mandate of the Authority under the Convention and the 1994 Agreement in relation to capacity-building and capacity development;
- (e) To help to identify needs for technical assistance by the Authority in order to support national or regional initiatives relevant to the mandate of the Authority;
- (f) To support the work of the secretariat in establishing a network of institutions that could contribute to the implementation of the dedicated strategy of the Authority for capacity development.

3. The secretariat shall keep national focal points up to date on activities undertaken in cooperation with national focal points for capacity-building and capacity development.
