Strategic partnerships

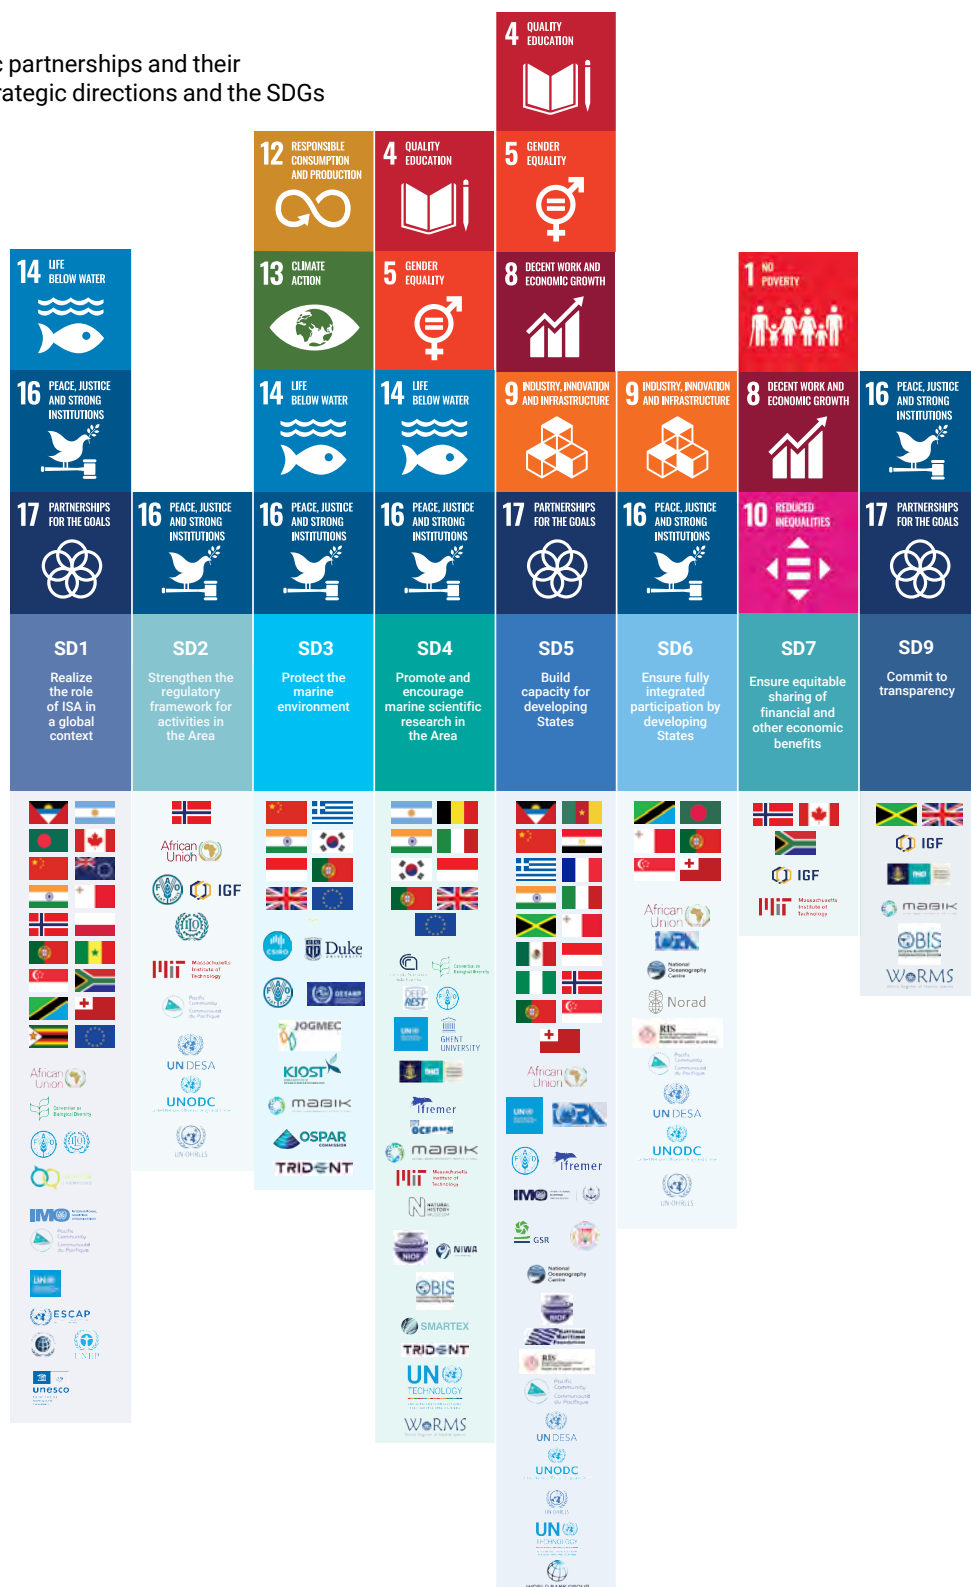

ISA places a strong emphasis on establishing strategic partnerships to deliver on the mandate assigned to it by UNCLOS and the 1994 Agreement. All partnerships are designed to support the delivery of ISA's programmatic activities, particularly as they relate to marine scientific research and capacity development.

During the reporting period, the Secretariat has strengthened its collaboration with eight entities, including through the signing of letters of cooperation with the Ministry of Oceans and Fisheries of the Republic

of Korea, the Gujarat National Law University of India, the Research and Information System of Developing Countries of India, the National Maritime Foundation of India, the Consiglio Nazionale delle Ricerche of Italy, the International Maritime Law Institute of Malta, the United Nations Technology Bank for LDCs and the Polynesian Sub-Regional Office of the Pacific Community in Tonga.

A key objective is to leverage the comparative advantages of the entities involved while creating synergies and avoiding duplication in mandates and programmes.

Figure 4. ISA strategic partnerships and their contribution to ISA strategic directions and the SDGs

Signature of a letter of cooperation with the Research and Information System for Developing Countries - 31 January 2023, New Delhi.

Signature of a letter of cooperation with the National Maritime Foundation of India – 30 January 2023, New Delhi.
