

## ISA 29th Session, Part II – Reading of the Draft Consolidated Text

### Oral Statement by the Federal Republic of Germany

Delivered in July 2024

#### **Regulation 105 bis - Periodic review of inspection mechanism**

We are open to the edits that have been made to DR 105.bis. However, we wish to see an amendment to the title. It should read: “Periodic review of inspection, **compliance and enforcement mechanism**”. The current title focuses only on inspections and is therefore too narrow, as the regulation is clearly meant to have broader application, i.e. including compliance and enforcement..
