

ISA 29th Session, Part II – Reading of the Draft Consolidated Text

Oral Statement by the Federal Republic of Germany

Delivered in July 2024

Regulation 48bis (former DR 48bis alt) - New Environmental Impact Assessment and Revised Environmental Impact Statement

Our delegation only wishes to note that with regards to this regulation, which we support in principle, we are still studying the apparent linkages of, and overlaps with, DR 57 on 'Modification of a Plan of Work by a Contractor' and may get back with further remarks in due time.
