# Overview

The International Seabed Authority (ISA) Partnership Fund is a multi-donor trust fund established on 3 August 2022 by the ISA Assembly during its 27th session.<sup>1</sup> The Partnership Fund aims to promote and encourage marine scientific research in the Area for the benefit of humankind and to contribute to dedicated capacity development programmes and activities aligned with the priority needs identified by developing States Members of ISA. The Partnership Fund supersedes the Endowment Fund for Marine Scientific Research in the Area and is administered by the Assembly under the **terms of reference**<sup>2</sup> adopted upon recommendation of the Finance Committee.

## Objectives

The ISA Partnership Fund aims to

- promote marine scientific research in the Area for the benefit of humankind
- provide qualified scientists and technical personnel from developing countries with opportunities to participate in international marine scientific research programmes
- finance the design, development and implementation of development programmes and activities aligned with the priority needs identified by developing States Members of ISA
- contribute to the implementation of the **Action Plan in support of the United Nations Decade of Ocean Science for Sustainable Development**<sup>3</sup>
- enhance ISA's contributions to the implementation of the 2030 Agenda for Sustainable Development and the achievement of the Sustainable Development Goals.

## Activities eligible for funding

Activities that can be financed under the ISA Partnership Fund include:

- the development and implementation of marine scientific research programmes in the Area in line with the strategic research priorities identified in the **ISA Action Plan in support of the United Nations Decade of Ocean Science for Sustainable Development**, which will benefit qualified scientists and technical personnel, as well as relevant national and regional institutions from developing countries and regions
- the development and implementation of training programmes in line with the decision of the Assembly relating to the **implementation of a programmatic approach to capacity development**, particularly those addressing the priority needs for capacity development identified by developing States Members of ISA
- the development and implementation of technical assistance programmes and activities that will enhance the implementation of the ISA Strategic Plan for 2019-2025<sup>4</sup>, the High-Level Action Plan<sup>5</sup>, the **Action Plan for Marine Scientific Research** and the **ISA Capacity Development Strategy**<sup>6</sup>
- the engagement of multilevel partnerships on the conduct of marine scientific research programmes in the Area and dissemination and sharing of their results with interested Member States, contractors, relevant ocean industry sectors, the United Nations and its funds and programmes, relevant subregional, regional and international organizations, scientific communities and relevant civil society organizations

The Partnership Fund may finance eligible expenditures for ISA-executed activities, such as staff costs, contractual services, equipment and office premises lease costs, media, workshops, conferences and meetings, and travel expenses. All recipient-executed activities funded by ISA must follow the applicable policies and procedures of ISA.
